**Clear the Inner Subconscious Basement of Hidden Saboteurs**

We know it's there. All that **stuff**. The unresolved issues, painful memories, walls of separation, guilt, anger, sadness.... It just hangs around in our subconscious basement because we haven't known how to effectively resolve it. Now we have a powerful tool to take with us when we go down those basement stairs! EFT (Emotional Freedom Technique) is probably the simplest of the Energy Medicine techniques, which are transforming the "healing world."

### **EFT IS AMAZING!**

It's marvelous how quickly EFT will guide you to recognize and move towards resolving key issues in your life. EFT can be learned in 5 minutes, but knowing what to tap on, and how to uncover and resolve core issues improves with experience. Working with an innovative trained practitioner will help you find the most efficient ways to work on your unique issues. You can continue with these self-healing tools at home at any time, with anyone. You will continue with these self-healing tools at home - day or night.

### **Get rid of the negative without getting negative**

What we are learning about the unlimited power of our minds is amazing. Nevertheless, when we confront an invisible problem (like anger, fear, jealousy, guilt, addictions, limitations, stress, etc) we often don't know what to do or how to use that incredible power of mind. It's hard to get a handle on invisible things.

Maybe that is what makes EFT so powerful. When we uncover our invisible problems, we have something visible, tangible to work on. Releasing negative and limiting beliefs and emotions opens the door for us to become who we really are - **E.P.O.P.s**

**Exceptional People Of Power Empowered People On Purpose**

"Some day the medical profession will wake up and realize that unresolved emotional issues are the main cause of 85% of all illnesses. When they do, EFT will be one of their primary healing tools .... as it is for me." - Eric Robins, MD
