### Testimonials:

\* Hi Nick, You know more than anybody else how hard it is to express what one can feel after spending 20+ hours in Dr. Sharon's presence. You said that it will be a life changing experience... It was. It really was! It has changed my husband's life as well as mine. It was fantastic - Dr. Sharon is extremely smart, beautiful, loving and inspiring person. Her talks, her teaching, her healing was amazing. I couldn't believe what she was teaching us. I was amazed how simple her healing methods are - everybody can do it without any special tools needed. That was really shocking. The healing was extremely powerful. Nick, thank you very much for being one of my angels and told me about this special person. Thank you. Emma and Leo

\* Sharon Forrest is above all else, one of the most dedicated professionals whom I have had the pleasure to learn from. I recommend her work whole heartedly and thoroughly endorse her programs." *Dr. Bernard L. MD*

\* Dear Dr. Forrest, My good friend Lisa Chapman (a massage therapist) happened across the workshop last Nov. and signed up at the last moment. She said that it was amazing, and she immediately began incorporating her newly acquired skills into her practice with amazing results. She said I MUST go. Then last Tuesday I met two more women at a Reiki practitioner night we go to every month, which had also attended. They said that your workshop was nothing less than life altering. Bonni Y

\* This is my second workshop with you and I have already incorporated many of your techniques into my private practice with great results. *Dr. George P. DC*

\* Two hours with you, WOW! You have made such a difference in my life. I am totally healed of MS! I don't know how I can ever thank you. *Catherine*

\* Dear Sharon, Diana felt so good about her session with you I am encouraging her to not only see you regularly, but to participate in all your workshops. So glad I've experienced your work it has helped me so much in understanding my self and my clients. Diana is not the first person I have recommended your work to. *Betsy HHP*

\* Hey there Sharon, this is Mark. Robin and I just wanted to thank you so very much for your kindness and hospitality yesterday at class; it really was a very special day for both of us.

It is wonderful how perfect the universe can be. Only a short time before we both asked for someone to come into our lives to guide us to the next level, so to speak. It is strange that out of all the people we know in our lives, there isn't anybody that we would consider to be a guide or teacher. Most people seem to have their own agenda whether for material gain, their own growth, or to feed the ego. So I guess what I am saying is "Thank you so Very much" for being who you are.

For carrying the light to those in need. For the pure heart you possess, and the unique way you present things in a humorous yet Loving, caring and easy way to understand.

You have personally given me the hope that I asked for. I asked for someone to be shown to me that I could relate to. Someone I could look up to and respect. Someone who lives a life of service for others; and, that would act as a mirror for our growth.

You probably hear these things all the time; however, we thought perhaps it wouldn't hurt for you to hear it again from us. You are one Very Special being, carrying out a very special purpose in this much needed time. We Love and Honor all that you stand for and contribute to this world, your contribution to this world is most the Nobel gift one could offer.

It is the kind of contribution that deserves an Oscar or purple heart; however, we all know that is not the case here on this planet. Just know the vision of the path you lay is priceless, and will receive the recognition you so deserve.  
All Our Love Mark and Robin C
