Priority Testing

**Old Chinese Proverb: I hear, and I do not believe,
I see, and I do not comprehend, I do, and I understand.**

➤ The ONLY time Dr. Sharon Forrest teaches this modality is once a year during this particular Training/Retreat.

“Results Guaranteed” Priority Testing:

Curing is treating and trying to eliminate the symptoms. Healing is uncovering the underlying cause to affect a lasting healing. Healing incorporates body, mind and soul.

Priority Testing: This is an informative and experiential 14-day Retreat on Vibrational and Subtle Energy, Behavioral and Preventive Medicine, multi-disciplinary and multifaceted approaches to healing mentally, physically, emotionally and spiritually. At the beginning of the “Results Guaranteed” Training you will be taught **‘Priority Testing,’** the highlight of the program. People can't believe, understand or even fathom how powerfully effective this modality is until they learn and experience it themselves. Priority Testing is revolutionary, quantum, and transformational healing technology. **It has unprecedented success in directly accessing the underlying cause of an individual's physical or psychological issue and ascertaining the best means of treatment to quickly achieve a lasting healing!**

♥ *"I found this form of diagnosis and treatment not only helpful to me personally but absolutely mind blowing! These folks are tapping into universal consciousness in ways that will transform healing, the world, and the way in which we perceive ourselves. Highly recommended!"* - Lionel Friedberg, Emmy Award-Winning Documentary TV producer.

♥ *"I added this exciting work to my repertoire one day. Clients who were unable to obtain relief elsewhere are generally relieved with one visit. With much love and caring, Priority Testing takes the guesswork out of diagnosis and ascertaining the most effective treatment."* Dr. George Polluck D.C.

We know that more and more practitioners will be needed who have expertise in the fields on Energy Psychology, Energy Medicine and Body/Mind Medicine. This “Results Guaranteed” Certification Training will not only help you gain essential skills, but also give you a competitive edge.

Psychoneuroimmunocardiogastroendocrinology: (No, you will not be given a test on how to pronounce or spell this word). We will inform you of the latest research in this field and then explore and demonstrate the omnipotence of Mind-Body-Soul Connection and the power of using the mind and the unified fields to heal.

Emotional Healing:

When we know that the cause of something is in ourselves, and that we (ourselves) are one of the few things in the universe that we have the right and ability to change, we begin to get a sense of the choices we really do have, an inkling of the power we have, a feeling of being in charge of our lives, of our future, of our dreams. - John-Roger and Peter McWilliams

During the **"Inner Child"** section you will learn and experience diverse ways to heal your own Inner Child and be able to empower loved ones and clients to do so as well. You'll be given the opportunity to determine, eliminate and/or reprogram non-beneficial programming from childhood and the womb plus "The Why Is This Happening To Me Again?" Syndrome. The particular Inner Child work offered during this intensive begins where other workshops and therapies usually either end or give up.

You'll also discover a particular therapy that has unique status in the world- **The Multigenerational Emotional Release and Cellular Level Core Clearing.** Go beyond the 'releasing' to clear and heal at the core, the underlying cause, breaking multi-generational patterns of fear of success or failure, low self esteem, self sabotage, giving one's power away, abuse and/or addictions, etc., etc.

Abuse Issues such as mental, physical, emotional, verbal, sexual, spiritual and neglect, as well as the signs of abuse as well as their long-term affects and impingements will be addressed. You will learn powerful techniques for effectively resolving/transforming the affect s of the abuse.

It Works! - Ho'oponopono - a remarkably powerful yet simple tool to use in everyday life. Heal relationships and conflicts with mates, friends, parents, children, partners, bosses, employees, anyone in minutes. Amazingly, the person doesn't even have to be there to effect change!

♥ "Dr. Sharon Forrest's 'It Works' and her 'MGECR' technique eliminate 5 to 17 years of therapy in an hour and a half!" Dr. Lee Chase, past Dean of Psychology in California

♥ "Dear Sharon: Firstly I can't thank you enough for the amazing healing you administered to me. The changes resulting from what turned out to be a multi-generational healing are profound and life altering. I thank you from the bottom of my heart - the relationship issues are ones I've worked on for years with some but little change - your healing has allowed major shifts to occur. I am very, very, very grateful." Maria

♥ "Though my life has been relatively happy and fortunate without any remarkable tragedies or misfortunes, nevertheless life's inevitable vicissitudes have left their sometimes obvious, and in other cases hidden (at least to me) marks on my psyche, which I am dedicated to healing so that I will realize my fullest potential as a human and spiritual being. I gained a huge amount of insight, clarity and empowerment from this weekend, as I healed my relationship with my father, mother, grandfather, and entire extended family, as well as clearing the emotional scars from a relationship and painful breakup with a past partner." Merlin

♥ "I found Dr. Forrest's "It Works!" to be transformative. An amazing process! Clarity, profound understanding, compassion and self-forgiveness emerged. As a result, I have my life back. I highly recommend her therapies to individuals and families stuck in painful unresolved issues of blame, grief, anger, depression, trauma, abuse and those interested in understanding and breaking multigenerational patterns." Debbie R.

♥ "The workshop has expanded my ability to 'use self' in therapy by expanding both my personal and professional skills. With my private clients, I have found Dr. Forrest's methods enhance the therapeutic process, accelerate healing and significantly decrease the number of sessions required for clients to come to peace with themselves, prepared to take appropriate action. I am now beginning to explore how I can integrate these skills in the clinical supervision I provide for family therapists at my agency.

As a fellow educator, I am very impressed with Dr. Forrest's course material and her methods of teaching. Dr. Forrest does a wonderful job of making learning fun, easy and meaningful. She takes very complex material and conveys it in simple but elegant ways. Exercises, materials and experiential learning are nicely balanced. Personal risk taking is made easy within a safe context of mutual respect and support." Len Z B.A.,R.P.N.,M.S.W.

The energy in Cowichan Valley, the lake, surrounding woods and the Retreat Centre itself are very conducive to Healing. Like the volcanoes and springs gurgling up, deep-seated issues will surface, be felt, and be transformed to create new grounds for you to walk on in your life. Even if you have studied some of these techniques with Dr. Forrest before, not only will you reinforce what you have learned but you will now master the most effective, productive ways of using them; as well as how and when each therapy is the most productive healing modality - **the 'top priority'**. Then too, Dr. Forrest always has something new and exiting to teach.

Hypnosis:

*"What lies before us and hay lies behind are small matters compared to what lies within us. And when we bring what is within us out into the world, **miracles happen.**"* - Thoreau

You will learn and experience a number of exceptionally effective hypnosis techniques: Phobia Cures, Instant Pain Relief, establishing a relationship with Guardian Angels or Protector Guides, Inner Child Rescue, various modalities of Past Life Regressions plus the techniques on the cutting edge of hypnosis in medicine today, **Psychocellular Communication Therapy, Prenatal Suffocation Syndrome Release, Past-Life-Back-Door, Soul Retrievals: Thought Field Therapy/EFT; Holotropic Breakthrough; and Accelerated Transformation.** There are a number of detailed, step-by-step scripts for each of these procedures plus others in the large Manual you will receive during the Training.

Hands-On-Healing – Energy Medicine:

Inside each one of us there exists an infinite source of wisdom, healing energy and an unlimited reservoir of possibilities that are waiting to be awakened. Let's awaken these in you!

electromagnetically with up to 10 million other cells. Energy Psychology/Medicine works directly with the electromagnetic and subtler energies that orchestrate health, emotions, and behavior. It is proving to be an effective, powerful, and surprisingly precise way of improving health, enhancing performance, and increasing joy in one's life. Energy Psychology/Medicine draws upon ancient wisdom and spiritual practices and combines them with scientific procedures (e.g., empirical research, biofeedback, EEGs, and MRIs), and adopts them into modern contexts. Its applications extend far beyond the health care setting, into business, education, government, and family life- everywhere that people wish to be more effective, vital and creative. These subtle energies are the bridge in the mind-body-Soul connection. A wide range of practitioners interested in increasing their clients' vitality, mental acuity, and health can easily adapt the techniques it presents.

“The physical body is the densest component of many interactive energy fields. Each of these fields is connected to the physical cellular structure through a complex network of energy threads” -Richard Gerber, MD

Phytotherapy:

You will learn how to prepare your own herbal remedies, soups, teas and cleanses to enhance all areas of life. Specific areas we will focus on are: bladder/urinary track infections, bone building, cancers, candida, chronic fatigue/fibromyalgia, cleansing/detoxing, depression, fibrocystic breasts, immune system enhancement, insomnia, liver, gallbladder, menopause, prostrate and varicose veins.

Psychocellular Communication Therapy and Accelerated Transformation:

The last three days of the Retreat will be dedicated to making breakthroughs and experiencing Psychocellular Communication Therapy and Accelerated Transformation. Both are on the cutting edge in psycho-physiotherapy. You'll realize that there are no incurable diseases only incurable people. **Psychocellular Communication Therapy** is a form of Spiritual Alchemy and Spiritual Psychology. This particular combination of Regression and **Past Life Therapy** is channeling your own Higher Self. It is direct communication with the Highest part of yourself, which knows everything about you, has never judged you and loves you unconditionally. You can connect with this consciousness; to gain in wisdom and understanding; to clear unfinished business and to heal on all levels. It is not really hypnosis but a guided journey of self-discovery and healing. Psychocellular Communication is the technique Dr. Forrest used to heal her daughter of MS 19 years ago and herself. 30+ years ago Dr. Forrest had lupus and chronic bronchial asthma to the point of receiving Last Rites a couple of times and had Near Death Experiences. Today she is vibrantly healthy and full of energy.

EFT and Accelerated Transformation is subconscious, cellular and morphogenic field clearing of any deep seated or hidden core issue and transforming it. EFT is gaining in popularity worldwide.

Psychocellular Communication Therapy, Regression and Past Life Therapy and Accelerated Transformation deal with: healing the Inner Child; healing spousal, family and work relationships; healing woundedness from broken relationships, dissolving phobic fears; rebirthing; possession; uncovering the underlying cause of non-desirable patterns, emotions, chronic illness, aches and pains; clearing the emotional body; discovering past lives in connection with present day relationships; overcoming fears of death and dying; communicating with loved ones who have passed over; understanding your Life Mission; uncovering the saboteurs and turning your life around.

Immediate results invariably are: Forgiveness of self and others; deep understanding of patterns, feelings and relationships; improvement in mental, emotional and physical health; a new and better outlook on life; a deeper sense of total well being and a determination to walk your own Life Mission. This process will give you much greater insight to your purpose here and where your important relationships first began. Dr. Sharon Forrest finds Psychocellular Communication is also the most effective to reverse and heal chronic and degenerative diseases.

“Since the beginning of time there has never been a disease that someone, somewhere, somehow, has not completely healed. Can what they did work for you, a loved, or client? Is there any reason why it should not?”

- Dr. Sharon Forrest

Commitment:

We know that the gorgeous surroundings and delightful Retreat Centre offerings will be enticing, however, it is imperative to make a commitment to yourself, your Life Mission and the other participants to **attend ALL of the classes on the main program**. We accept an even number of participants to take part in the Training for a reason. Throughout the Training participants pair off to practice the procedures they have just learned. If a person is missing in a class it disrupts the pairing-off plus the special bonding that we have created to facilitate profound healings. It scatters the Group Energy. You will have free time each day to get out in nature, enjoy and/or be on your own. You'll be glad to know that we will hold some of the workshops outside in nature.

Enjoying The Retreat Centre and Vancouver Island more: “Results Guaranteed” is a **Certification Training** not a vacation. You might want to consider arriving a few days prior to the Training, or staying a few days afterwards to explore Vancouver Island. A must see is the exquisite Butchart Gardens! Well worth the time. <http://www.butchartgardens.com>

Certificate:

To receive your “Results” Certificate you, the participant, **must** attend **ALL of the classes that are included in the main program.**

Free Time:

Yes, you will have free time to: explore, play, rest, hike, walk, swim, soak in the hot tubs, sun bathe, process what you worked on, practice what you learned, bond with new friends, journal, meditate, have spiritual moments, etc. Perhaps, at an additional minimal cost you'd like to profit from some of the **Special Delights** - e.g. schedule a private session, treat yourself to a delightful massage, or take the advantage of an awesome practicum -(more information regarding these further on).

Early Bird Temptations:

We offer **Yogacise** sessions a few mornings before breakfast. Yogacise is a combination of Yoga and exercises that Dr. Forrest put together for her hospital in Mexico. It's easy and light, but works on all parts of the body incorporating each muscle, ligament and joint. People love it. We often **hike in the woods** early in the morning before classes. We'll go at our own pace. Or, swim. Energizing! You'll love it!

Optional Morning Meditation and Spiritual Moments:

We will offer guided meditations prior to the class most mornings and the occasional evening one as well.

Special Delights:

During the '**free times**' you can choose to pamper yourself by scheduling one of a wide range of treatments such as massages and/or participating in a practicum. We call these '**Special Delight Practicums**'. These include various types of mini 3-hour experiential workshops, plus an exceptional all day event.

Optional Practicums: Various skilled people are offering a few exceptional 'Special Delight Practicums' s for a very minimal fee of \$35.00. These are to be paid directly to the person(s) facilitating that particular practicum. This year the \$35.00 Practicums for the Retreat include the following Practicums #1 and #2, plus an all day event. If you would like to teach a practicum please send us a detailed description.

Practicum #1:
