Dr. Sharon Forrest, a healer since early childhood, blends healing and science with love and laughter as presents this remarkable Mind/Body Healing opportunity for those who are interested in experiencing the amazingly powerful **CCMBA "Complete Cellular Mind Body Alignment & Activation"** plus the **CCSMC "Complete Cellular Soul Memory Clearing"**, Dr. Sharon, who has been teaching the CCMBA worldwide for almost 40 years, and now the CCSMC, is still in awe of what takes place in each session and how powerful and yet simple it is. The CCMBA is claimed by researchers to be the most powerful 'Hands-On-Healing' Technique in the medical and spiritual fields today. **Yes, you can learn how to do it and teach it in just a few hours!**

Experience the **Law of Grace**, which takes precedence over the Law of Karma. The CCBMA Energy works with the Higher Self on the individual's issues no matter what they are and obtains results! The Energy targets the problem wherever it exists and works on all levels, mental, physical, emotional, and spiritual. Some will release deep-seated emotional and physical trauma; others' bones will realign, some have chronic back/neck pain and/or scoliosis, which totally disappears; still others will release toxins and poisons from their system; others will have a Divine spiritual awakening, others are energized, some will let go of non-desirable habits, some increase healing abilities, and still others will gain a totally new outlook on life. There are several benefits from doing the CCMBA and CCSMC often. Each time you experience the CCMBA and CCSMC you will work on something different and you will experience something different, often on higher, deeper, more profound levels.

#2 The Ancient Chinese Black Pearl Technique is hard to describe. Words don't do it justice. It releases deep-seated traumas and stress from the amygdala, When the amygdala is stress free it becomes like a black pearl hence the name. The Black Pearl Technique works on your parasympathetic, sympathetic and neurovascular System as well to promote complete relaxation and rejuvenation. It is guaranteed to be something that you will delightfully take home to use on loved ones and/or clients.

The amygdalae are almond-shaped groups of neurons located deep within the medial temporal lobes of the brain. Shown in research to perform a primary role in the processing and memory of emotional reactions. The amygdalae perform primary roles in the formation and storage of memories associated with emotional events. Memories of emotional experiences imprinted in reactions of synapses in the lateral nuclei elicit fear behavior through connections with the central nucleus of the amygdalae. The central nuclei are involved in the genesis of many fear responses, including freezing (immobility), tachycardia (rapid heartbeat), increased respiration, and stress-hormone release.
